MEMORANDUM FOR: National Intelligence Officer for East Asia/Narcotics
FROM: Director of Central Intelligence
SUBJECT: Narcotics

1. This is what I brought back from the Cabinet Council meeting last week.

2. I had a long talk at Bill Simon's house this weekend with a lady, [redacted] used to work on narcotics problems for Treasury and still travels extensively around the world on her own looking at the narcotics problem. She is very knowledgeable and interesting. I would like to send her, with the attached note, one or more of the documents which Justice made available. Will you recommend what would be suitable.

3. [redacted] who has just returned from a trip [redacted] tells me that Hong Kong money is going heavily into buying land, she thinks to grow narcotics weed in the Pacific Islands.

4. She is also interesting on the degree to which money flowing from the US for crop eradication is taken and used to develop other growing areas in more obscure parts of the same countries. Have we seen indications of this?

5. Also, I would like to receive an update on the narcotics flow out of Afghanistan through Pakistan. I'd like to know what we know about Soviet influence and financial and other potential benefits from the flow of wheat and processed narcotics out of Afghanistan. We hear a lot about their problem with addicted soldiers but little about the possibility that they may have gotten into the drug business in a big way.

Dear

25X1

Enclosed find the new material churned out by those in this government responsible for combatting narcotics. I was happy to see you in Easthampton and was glad to learn more about your work.

If I can be of any help to you or if there is something I should know, please get in touch.

Best regards to
